

LYNX Touch

Residential Solutions

DYNAMIC, FULL COLOR SELF-CONTAINED
HOME CONTROL SYSTEM

Your Connected Home

Honeywell

Your Connected Home

Honeywell's LYNX Touch self-contained home control system does so much more than protect your home and family. It lets you control your security system, thermostats, garage doors, lighting, locks and more—all from one brilliant, full-color touchscreen.

Your dealer can even custom-design a system with options that work for your lifestyle and budget.

Welcome to your connected home!

LYNX Touch Self-Contained Home Control System

Sleek, stylish look suits any décor.

Garage Door Control From Anywhere!

Security and Convenience

Mobility at Home

Download our **L5100 Connect iOS app*** to operate LYNX Touch anywhere in your home on your iPhone®, iPad® or iPod touch®.

**L5100 Connect iOS app available in Apple® iTunes® Store for a nominal fee.*

Brilliantly Simple

The sleek, attractive LYNX Touch features a brilliant, 4.7" full-color touchscreen that makes security system operation easier than

ever—with graphics and menu-driven prompts guiding you every step of the way.

Easy to Read

The icons and words are large, clear and easy to read—making it great for family members of all ages.

Full Voice Response

For an added level of security, system status and zone descriptions are clearly spoken.

Customized Information

Customized location-based content for weather, traffic and news can be delivered right to the touchscreen. You can opt to view the weather in Fahrenheit or Celsius.

4G Advanced Alarm Communications

LYNX Touch finds the best signal in the area, helping to make sure alarm signals can get through to the central station.

24/7 Monitoring

You and your family can enjoy peace of mind 24 hours a day, 7 days a week by having your security system monitored by a central station. These highly trained home security professionals are always standing by, ready to send help to your home in the event of a fire, burglary or other emergency.

Emergency Alerts

Get tornado alerts in the U.S. and Canada delivered automatically to the touchscreen based on zip/postal code (requires Honeywell Total Connect™ with Information Services Package).

Two-way Voice

When an alarm signal is received, the optional two-way voice feature lets central station operators listen in and talk to you or anyone else on the premises[†]—assuring you that the proper response personnel will be dispatched at a moment's notice should the need arise. Ask your dealer about availability.

†Excluding fire or carbon monoxide alarms.

Remote Control From Anywhere

With Honeywell Total Connect Remote Services, you can operate LYNX Touch from smartphones and other compatible mobile devices.

Home & Energy Management

When you add home automation capabilities to LYNX Touch, you'll have centralized, fingertip control of your garage doors, thermostats, lights, locks and more from one user interface. You won't believe how easy it is to stay comfortable, save money and save energy without having to change your daily routine! You can even set scenes and schedules. Plus, you can control all of these functions virtually anywhere when using Honeywell Total Connect™ Remote Services.

Thermostats*

Honeywell's Z-Wave® enabled thermostats can automatically adjust every time you arm or disarm LYNX Touch.

**Temperature available in Fahrenheit or Celsius.*

Lighting

You can turn select indoor and outdoor lights on or off every time you arm or disarm LYNX Touch.

Locks

Lock and unlock your doors using LYNX Touch or the iOS app on your Apple® devices.

You can even use the same four-digit alarm code to lock and unlock your doors.

Scenes and Schedules

Creating scenes and schedules with Z-Wave® devices can enhance your lifestyle and help you save money and energy without any change in your daily routine.

For example:

- A "Goodnight" scene could entail having the doors lock, thermostat setback and the lights shut off when you arm your security system at night
- A schedule might be created to have the porch and hallway lights on and the thermostat set to a specific temperature an hour before you leave the office so you arrive to a comfortable, well-lit home
- Groups of devices can be scheduled to turn on or off at various times of the day

Garage Door Control**

- **Control up to three garage doors** and know if they are opened or closed right from the touchscreen, tablets or any web-enabled device within your home
- **Conveniently schedule** the garage door to open at a specific time in the morning before you leave for work and close by a specific time every night
- **Have garage doors automatically close** if left open for a specified period of time or at a certain time
- **Auto-secure feature** lets you arm the system with the garage door open, and it automatically becomes part of the protected area when closed – no maximum exit delay times to worry about

***Additional equipment required. Not compatible with certain garage doors and garage door openers. Garage door control must have working entrapment protection. Contact your security professional for details.*

Open the Door to Convenience!*

You can also control your garage door remotely from anywhere when combining LYNX Touch with Honeywell Total Connect.

Open the garage door for an important delivery or close it via your smartphone when someone forgets. You can also receive email or text message alerts if the garage door is left open accidentally.

Get Connected

With Honeywell Total Connect™ Remote Services, you can perform many of the amazing functions of LYNX Touch remotely—including Z-Wave® thermostat and lighting control. You can control your security system and garage doors, receive alerts about important events via email, text messages or video alerts—even keep an eye on your home and family via live, look-in video—from wherever you are. Whether you use your PC or other compatible mobile device, the function icons look and operate just like the ones on LYNX Touch. Free Honeywell Total Connect apps are available.*

For more information, ask your security dealer.

With LYNX Touch and Honeywell Total Connect you can:

- **Know when** your children arrive home from school or if they haven't by a certain time
- **Control your** garage door remotely and receive notification if it has been left open
- **View live**, streaming video on up to six cameras at a time, record and store video clips and have pictures emailed to you upon an event
- **Check up** on your pets
- **Receive alerts** for extreme temperatures, which may help indicate a power failure or problems with furnaces or air conditioners
- **Know if leaks** or floods have been detected in laundry rooms, kitchens, bathrooms or basements
- **Know if an elderly** relative or loved one has pressed a panic pendant to summon emergency help
- **Find out when** motion is sensed in outdoor areas like pools, patios or driveways
- **Receive notification** if activity is sensed by protected outdoor surfaces or valuables
- **Protect indoor** valuables from theft by receiving an alert if they have been moved or disturbed
- **Find out** if off-limits areas have been accessed

*Free Honeywell Total Connect apps for iPhone® or iPad® available now from Apple's iTunes® App Store. Android™ smartphone users can visit the Google Play Store. BlackBerry® version can be accessed by Honeywell Total Connect subscribers at the BlackBerry App World™ Store or when logging on to their accounts. iPhone and iPad are registered trademarks of Apple Inc. All other trademarks are property of their respective owners.

Whole House Protection

Honeywell's wireless security products are an excellent complement to LYNX Touch—providing you with a higher level of convenience, peace of mind and the complete, whole-house protection you deserve. Their rock-solid stability and long battery life make them a popular choice among homeowners, with millions installed worldwide.

Safety Protection

Wireless smoke, heat and carbon monoxide detectors are connected to your alarm system and can be monitored 24/7.

Remote Keyfobs

Our compact wireless keyfobs let you control your security system with push-button ease.

No Mess

Our wireless products help installers overcome obstacles like brick walls, cement floors and cathedral ceilings—resulting in faster, cleaner installations and preserving the beauty of your home.

Emergency Help

Our panic pendants provide you with peace of mind by summoning emergency help with the press of a button. One or two-button keys let you, an elderly relative or anyone who may require emergency assistance send signals to the central station to summon the police or medical response personnel when an alarm is triggered. Compact and water-resistant, they can be worn wristband, pendant, belt or keychain style.

Environmental Sensors

Ideal for kitchens, bathrooms, laundry rooms, basements and more, Honeywell's environmental sensors can notify you when detecting floods, leaks and extreme temperatures—helping to minimize the risk of dangerous conditions and damage to your home and valuables.

Indoor Protection

Indoor motion sensors help safeguard against intruders by causing the alarm to sound when movement is sensed in designated areas. They can detect the difference between intruders and animals—letting pets move freely about your home without setting off the alarm.

Outdoor Protection

Our robust, all-weather wireless outdoor contacts and motion sensors keep you aware of what's going on around the exterior of your home while creating a safer environment.

- Outdoor contacts are used to detect security breaches on surfaces such as gates, sheds, fences, barns and detached garages
- Choose wireless outdoor motion sensors when you want to be aware of movement detected around areas like driveways, patios and pools

Theft Prevention

Wireless theft prevention sensors can be easily affixed to any valuable in your home and alert you when an attempt is made to move or disturb the object.

Portable Keypads

Wireless keypads are a great complement to LYNX Touch, offering portable protection that can be placed virtually anywhere in your home. They can also talk to you, announcing system status clearly.
